

CHANGE IN BUSINESS

To My Friends and Customers:

Having decided to make a change in my business I will on MAY 1st, offer to the public \$18,000.00 worth of Clothing, Shoes, Hats and Furnishing Goods at COST, and in many instances less than COST for CASH only. No goods will be charged to anyone, also no goods will be sent out on approval unless they are paid for. In case goods are taken out on approval and they do not fit and suit we will take them back and refund your money if returned in good order. We can show the largest and most up-to-date lines of

Clothing, Shoes, Hats and Furnishing Goods

ever shown in this city. I had purchased all of my Spring goods before I made up my mind to make the change, therefore you have the advantage of buying new and

Up-To-Date Spring Goods at Manufacturers' Cost.

Below I will give the prices on a few of the leading lines: John B Stetson's \$5.00 Hats will be sold for \$4.00, \$3.50 Walk Over Shoes for \$2.95, \$4.00 Walk Over Shoes for \$3.25, Florsheims Ideal Pat. Kid Shoes worth \$5.00 and \$6.00 for \$4.25, Monarch Shirts 83c worth \$1.00 and \$1.25, Fountain Shirts 83c worth \$1.00 and \$1.25. All other lines in proportion.

Remember the date, **MAY 1st**, and come with your pockets filled with coin and we will give you some of the best bargains you ever bought and send you home happy. Thanking the public for their very liberal patronage in the past, and hoping that each and all of you will call and secure some of the great bargains we have to offer you, I am sincerely yours,

H. T. LOGAN, LANCASTER, KY

-Of Local Interest.-

Garden truck is now growing with a vim.
Drive out and see the lake. It is a beauty.

Several negroes engaged in a shooting bee on the Chute Sunday morning. Two slightly wounded.

Booze followed freely Saturday afternoon, several fellows taking on a load that was hard to manage.

The laws governing the waterworks are printed in this issue. They show that Lancaster has the most reasonable rates in Central Kentucky. This will jar the croaker.

Blue Eyes Sold.

A. E. Hundley, of Danville, writes The Record that he has sold the pretty little Shetland pony, Blue Eyes, for \$250. The little fellow will remain at Mr Hundley's during the present season, however, but in the fall will be sent East.

Decent Ball Playing.

The Second Team came over from Danville and played a pretty game with the Lancaster base ball team. The home boys won by a big score, but the game was so devoid of "scrapping" and disgusting quarrels that it was enjoyed by the large crowd who witnessed it.

A Popular Place.

The WCTU Library, which is now open, is proving a great blessing and convenience to the public. It costs only \$1 year membership, which is the lowest fee in Central Kentucky. The shelves are filled with the best books printed. The ladies have worked faithfully to establish the Library, and are entitled to much praise. The rooms are open every Friday and Saturday evenings, and all day Saturday.

Thanks of Building.

Mr J E Stormes, who purchased the Dr Herring place, occupied by Mr H. C Jennings, last week, telling us that it is possible that he will erect a modest, neat dwelling thereon at some future period, but that the statement that he will at once begin building "a palace" is without foundation. He gets seven and one-half acres, which runs back to the lots just laid off and to be sold today (Friday) by J I Hamilton. The fact that Mr S has bought this property is a good feature for those contemplating buying the Hamilton lots, as it assures them that, no objectionable characters will get possession of the place, and the further fact that he will more than likely build a handsome house is an incentive to prospective builders in the pretty additions.

The waterworks pool has been named Lake Placid.

Elder Tindler will preach at New Antioch next Sunday afternoon.

"The Singing Skule" advertised for Lancaster, has been indefinitely postponed.

Dedication.

The new Methodist church, at Wal-laceton, will be dedicated Sunday, the 5th, Rev. J L Sturgell conducting the services. He will preach at 10:30 a.m. and 2:30 p. m. The new building is a handsome one, quite convenient and an ornament to the town. Dinner will be served on the ground, and everybody is most cordially invited to come.

Hon. Harvey Helm Announces.

In this issue of The Record will be found the card of Hon. Harvey Helm, of Stanford, who is a candidate for Congress in this district. Our readers are too well acquainted with Mr Helm to need any introduction from this source, his many sterling qualities as a gentleman, a statesman and a lawyer having brought him before the people some years ago. The Record will say, however, that if the democrats place the standard in the hands of Harvey Helm, they will never have cause to regret their action.

Sunday Train at Danville.

Advocate.—Beginning next Sunday a new schedule will go into effect on the C O & T P railroad, whereby the Blue Grass Special, which is due to leave Danville daily, except Sunday, at 6:10 a. m. will run daily, thus giving the travelling public a chance to leave the city every Sunday morning and return at the same time as through the week. This will not interfere with the regular excursions that run every other Sunday. The usual Sunday rate of half fare will remain in effect.

To My Friends and Customers.

Having disposed of my stock of furniture to Messrs Hamilton & Dunlap, I take this method of expressing my deep gratitude for your liberal patronage, and to bespeak a continuation of same for my successors. I have removed my stock of undertakers' goods to a room in Stormes' Block, just above Presbyterian church, and am fitting up an Undertakers' Parlor, where everything to be found in an up-to-date establishment will be kept. The last session of the Legislature passed a law requiring all undertakers who do embalming to undergo an examination and receive a certificate. As I am properly qualified under this law, you are assured that all work entrusted to me will be done in proper manner. Again thanking you for your past patronage, and soliciting a liberal share in the future. Respectfully,
James A. Beazley, Undertaker.

Dr E H Pearce's subject for next Sunday morning is, "The Judas Way in the Christianity of To day."

Elder F M Tindler went to Versailles Wednesday to read a paper before "the Ministerial Association of Central Kentucky."

The third story of Citizens Bank building has been fitted up for the game of box ball, which is proving quite popular.

A number of Lancaster Masons will attend a meeting at Preachersville Saturday afternoon and night. A large crowd is expected and a most enjoyable time promised.

The City Council has purchased of Romans & Elmore a handsome hose wagon. It is arranged to be drawn by hand, is light and substantial. This gives Lancaster a complete fire system, the best in the state.

Tom McMillan placed the first fish in the lake Monday. It was a large bass, and had been raised in Wards pool by J E Stormes. Mr Stormes placed a number of fine fish in the latter pool several years ago, and an effort will be made to catch and place them in the waterworks lake.

Merry Party.

A large number of students from Caldwell College, Danville, drove to Lancaster Monday night. They rested in the Masonic Lodge rooms for a time, taking up the return trip about ten o'clock. The young ladies were exceptionally pretty, and had the Lancaster dudes hopping about like so many fleas on a hot skillet.

A Colored Jury.

City Attorney Swincbrod tells us that he tried Humphrey Fligg, a colored man, twice before a jury of white men on a charge of gambling, each time the jury failing to agree. Tuesday he had summoned a jury of colored men, who stuck a fine of \$20 on Fligg. The jury was made up of reputable men, and good citizens.

The Tournament.

The entire program for the Athletic Tournament, to be held in this city is published on the supplement of this issue of The Record. It shows the liberal premiums offered, and the fact that it will bring a great many of the best contestants in the state. A special feature will be the selection of a Queen, which honor will be not only contested for by the friends of several young ladies whose names will be announced. The young men are doing all in their power to make the Tournament a success, and the large number of entries assures a most interesting occasion. Write B W McRoberts for program and particulars.

The regular services at Christian church next Sunday, Preaching by the pastor at each service.

Meeting With Success.

Mr T C Adams, who is here organizing a class in physical culture, is meeting with great success, and a large class is now assured. Business men who are closely confined to the house realize the great benefits to be derived from the Adams method, and will take advantage of the opportunity to receive instruction. Physical culture is taking the country by storm, and proving a blessing to business and professional men. Read Mr Adams' advertisement in another column of The Record.

A Good Thing.

Mr J R Haselden has just returned from Lexington, Ky., where he has been looking after his interest as a member of a firm that is pushing the Haselden Water Filter. The firm recognizes that it has the best thing on earth and are pushing the business with a vim, and offering the greatest inducements to men of good sense, whom they put into the business. The plan upon which the firm is conducting its business is all kinds of money to the men who get into the business with them. The firm wants men of good sense and energy, and to such they give the best of terms.

Col. Welch Dead.

Col. W G Welch died in Stanford early Tuesday morning. Some time ago he cut a corn on one of his toes, which resulted in blood poisoning. He grew rapidly worse, and death has been expected for some time. Col. Welch was one of the best lawyers in the state, a typical gentleman, a true friend, and ever ready to help those in want or distress. His taking away is a loss to not only his town, but to the state. He was a lawyer who practiced upon high, gentlemanly principles, having a supreme contempt for anything pertaining to rascality. Many were his acts of kindness, but he never paraded the fact when doing a good turn for his fellow man. The remains were interred at Crab Orchard.

German millet seed. Mount & Elkin. 5-6-11

Remember our sale of ready-to-wear hats begins today (Friday). Remember, the first who come, get first choice. Don't forget to see our pretty belts. Marvel Millinery Store, Miss Dickerson, Stormes Block.

We have German Millet, seed oats and corn, choice, nicely cleaned. Cultivated hemp seed on liberal terms. H A B Marksberry & Son.

German millet seed. Mount & Elkin. 5-6-11
Brown cultivators. Mount & Elkin. 5-6-11

To The Ladies.

It is my intention to carry over no stock, and in order to dispose of our ready-to-wear stock as quickly as possible, we have decided to begin today (Friday) and sell every ready-to-wear hat at actual cost. This will give the ladies some rare bargains, and as we are the first to inaugurate the cost sales in Millinery, we trust the ladies will come at once and take advantage of the remarkably good opportunity. Our line of pattern hats is complete, and we also call attention to them. Our trade has been very good, indeed, this Spring, and we want to show our appreciation by offering the public bargains which have never before been put in their reach. Marvel Millinery Store, Miss Dickerson, Stormes Block.

Kentucky Volunteers Attention.

Under a recent decision of the U S Court of claims there is a small amount of back pay, about \$10 per man, due the soldiers of the 2nd Ky. Vol. Infantry, War with Spain; and the undersigned has undertaken the collection of these claims in connection with Captain C C Calhoun, of Washington. The "First Call" men of this Regt; the rejected men who were omitted in former payment and those officers and men who did not receive the benefit of their furlough by reason of sickness or otherwise, will send their name, address, Company letter and Regiment No to the undersigned and he will immediately send full information and particulars. Friends of soldiers will please call their attention to this notice. J Embury Allen, Late Major 2nd Ky Vol. Infy., Lexington, Ky.

Good Spirits. Good spirits don't all come from Kentucky. Their main source is the liver-and all the fine spirits ever made in the Blue Grass State could not remedy a bad liver or the hundred and one ills it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over thirty-five years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size 25c; regular bottles, 75c. At all drug-gists. 1 Aug

Death of Dr. James W. Grant. Action taken by the officers of the Presbyterian church. In the removal of Dr. James W. Grant, our church has been called to mourn the departure of her Senior Deacon and one of her oldest and most devoted members. We, the ruling Elders and Deacons of the Presbyterian church of Lancaster, do hereby put on record our sincere appreciation of his devotion and loyalty to his profession, and bear our testimony that we shall not cease to thank God for the life he lived among us, and for the service he rendered the Master whom he served and adored; and we are confident of this assurance that "having fought the good fight and finished the course, and kept the faith he has received the crown of life." To his sorrowing family we extend our sincerest sympathy and assure them of our prayers in his behalf. This action shall be entered upon our records, published in the Central Record and a copy sent the family of our departed brother. C. M. Chumbley, Pastor.

Physical culture is essential to the well-being of man. I offer you strength, graceful and easy carriage of the body, and a method which will enable you to keep well. My method is simple, rational and especially suited for business and office men. It is good for all mankind. Men are dying by degrees for lack of exercise. Lack of exercise means stagnation, and stagnation means death. Results of my Method: DEVELOPMENT, STRENGTH, HEALTH. Are you nervous? Try this method. Too fleshy? Reduce by using it. Too thin? Work to your normal state. How about sleeping? Try this health-producer. It is nature's law. Keep every organ of the body up to nature's standard. Be a man; bid sickness depart and enjoy life. Get relief from indigestion and constipation. You can do it. Physical culture is sweeping the country, and it should sweep Lancaster. If you are well, keep well by using this system. If ill, cure yourself and remain cured. I shall be in Lancaster during the next few days for the purpose of organizing and instructing classes for men and boys. My system is new and ever popular. It has been placed in most of the cities and towns of importance throughout Kentucky, and is pronounced by some as being superior to any other method of similar character, surpassing the methods of such authorities as Swoboda, Macfadden and others of national repute. Yours for health, CURTIS ADAMS, Physical Director

KEYNOTE--General Development and Good Health. Good health is worth everything.

A house well-painted is

AN ECONOMY,

Not a Luxury.

A house painted with a cheap paint is expensive. The cost of applying it is the same as with a good paint. You cannot afford to let your house go unpainted. Neither can you afford to use a cheap paint.

THE EYES and their DEFECTS.

Nine tenths of the headaches supposed to come from stomach trouble or neuralgia are caused by eye strain. Glasses should be worn as soon as the first indication of failing sight or eye strain is noticed. Owing to the great demand for properly fitted glasses we have decided to send the assistant manager of our Optical Department Mr. R. N. Rasmussen to Lancaster for three days only.

MAY 16 17 and 18 where he can be consulted at the New Mason Hotel. We personally recommend Mr. Rasmussen to you and make the following offer: Any glasses purchased from him which do not prove satisfactory after two weeks trial may be returned and money will be refunded. We believe our business reputation is a sufficient guarantee for the above statement. Examination and consultation free. John C. Lewis Co. Louisville, Ky.

HARMLESS SNAKES.

A cough is more dangerous than a snake, because there are some snakes that are harmless and there is no cough that is not dangerous. Yet the very people who kill any snake on sight, on the general principle that it might be deadly, let a cough alone on the theory that perhaps it won't kill them. Hundreds of thousands of men and women have paid with their lives for the neglect of a slight cough.

Dr. Pierce's Golden Medical Discovery cures coughs, bronchitis, weak and bleeding lungs and other diseases of the organs of respiration, which, if neglected or unskillfully treated, terminate fatally in consumption.

"I feel it my duty to give my testimonial in behalf of your great medicine," writes Mr. John T. Reed, of Jefferson, Jefferson Co., Ark. "When I commenced taking Dr. Pierce's Golden Medical Discovery I was very low with a cough, and would at times spit up blood. I was not able to do any work at all, was weak and my head was dizzy. The first bottle I took did me so much good that I had faith in it and continued until I had taken twelve bottles. Now I do not look like nor feel like the same man I was a year ago. People were astonished and said they did not think that I could live. I can thankfully say that I am entirely cured of a disease from which, had it not been for your wonderful 'Discovery,' I would have died."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you do not ask for and of which you know nothing. Judged by its cures there is no other medicine "just as good" as Dr. Pierce's Golden Medical Discovery, for coughs, weak lungs and other diseases of the organs of respiration.

Dr. Pierce's Pleasant Pellets cure constipation. They do not begot the pill habit.

Sabbath Dishonor.

At request of the Record, a section of the discourse, delivered by the pastor of the Methodist church of this city, is given to our readers. The topic last Sunday—"The Dishonor of God in the Dishonor of the Sabbath," being one of a series now being given and continued next Sunday. Dr. Reed was requested to give the first ten minutes of the discourse especially to the young people of his congregation, and which at request of the Record is given in the extract below:

The text, Isaiah 56 and Malachi 1:8. "If I then be Father where is mine honor? Blessed is the man that keepeth the Sabbath from polluting it." A good man once on a journey met on the way a fellow traveler whom he found in some need. Out of seven dollars in his possession, he made a gift of six to relieve the wants of the other, reserving only one for himself. The man helped presently meets with acquaintances, needy like himself. He tells them of his goodness and help. "Did you say that he had one dollar left?" "Yes," but he said not for his own need, but that he would use that and provide more in his own way, for a rest place on the road for tired, needy people. "What do you say to a plan to rob him and take what is left?" The man and his friends, who were bad at heart, decided to do so. Later the good man was met on the road by the party and his remaining dollar taken possession of. He expressed surprise at the ingratitude as soon as he recognized the man benefitted; also at his companions in view of the kind intention to be served for all alike. For he had hoped to use his money, not only to leave a memorial of his goodness and help, but also to create a fellowship of helpers to help others in the same way, through the example he had given. The good man took his robbery quiet but not without protest. He went a bit further. He asked them to reconsider and restore what they had dishonorably taken from him. "The amount that you have taken, is small, and it is true also that I have ample means; also myself will manage to get along either without you whatever you decide to do, for a time. Allow me, however to say, this event will receive my regard later. For further on your present satisfaction will become your own unending self-robbery. His spurious answers variously, one, with sullen, contemptuous indifference; another with a jeer; another an uninvited sneer; later still the sardonic record was forgotten by the party in the satisfaction that they had secured enough to live and provide a reduced excursion rate to a wide open city. The parable teaching of the story in its application to the Dishonor of God in the Dishonor of the Sabbath is not remote. The good man going through the highway of earth's generations is God, the ready Giver of all good; the needy traveler he meets in the way, is man impoverished by a sinful nature in physical, moral and intellectual being; the six dollars are the six days of the week bestowed upon man for the righteous self service of his needs; the robbery of the Benefactor, is the individual and corporation robbery for the Sabbath dishonor of today; for pleasure and pleasure rather than reverence for the service of Christ's will and worship; the act and fact of registered defiance of One revealed and testified as having lordship of time, life, and death; One who is patient and forbearing today, but the Eternal Judge of that Eternity that shall be according to deeds done in the body of this life. And that future life has had no Revealer save One who has shown us in the parable of Dives and Lazarus that the misuse of God's good things constructs the memory and eternal self-robbery of its own self torment.

Cured His Mother of Rheumatism. "My mother has been a sufferer for many years with rheumatism," says W. H. Howard, of Husband, Pa. "At times she was unable to move, at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by Fries's Drug Store. 1m

We pay men to make us laugh, but we can be grouchy for nothing. Every dog has his day, but only the foolish man makes a night of it. Sick headache results from a disordered stomach and is quickly cured by Chamberlain's Stomach and Liver Tablets. For sale by Fries's Drug Store. 1m

ANNUAL SUNDAY SCHOOL Convention

For Garrard County, to be held in Methodist Memorial Church, Lancaster, May 31, 1904.

- PROGRAM.**
- 9:30. Round Table—The Vital Problems in Sunday School Management and Teaching.
 - 10:00. Devotional Service by Dr. E. H. Pearce.
 - 10:20. Address—"Some of the best things for our Youth," Rev. W. G. Stallings.
 - 10:40. Conference, Teacher Training, Led by State Worker, T. C. Gebauer.
 - 11:00. 1. Needed Qualifications for Successful Teaching, Leader, (10 min.)
 - 2. How These May be Acquired Through:
 - (1) Teacher's Meetings, by W. I. Williams, (10 min.)
 - (2) Training Courses, by Mrs. L. E. Walker, (10 min.)
 - (3) Reading Courses by Leader, (10 min.)
 - (4) Other Sources, Audience, (10 min.)
 - 11:40. Address to Sunday school pupils, by Leader, (10 min.)
 - 12:00. Appointment of Committees.
 - 12:00. Report of County Officers.
 - 12:00. Noon Intermission.
 - 1:00. Conference of Primary Workers.
 - 1:00. Conference of County and District Workers with State Worker and Others.
 - 1:30. Song and Prayer Service.
 - 1:45. Address—"What is That on Thine Hand?" Rev. D. E. Fries.
 - 2:10. Address—"Our State Work," State Workers.
 - 2:40. Offering.
 - 3:00. Report of District officers.
 - 3:15. Round Table—Sunday school Management and Teaching.

OBITUARY.

Annie H. Stout was born in Danville, Kentucky, June 10th, 1861, and died in Cloverdale, Sawana county, California, April 20th, 1904. The funeral took place April 21st, conducted by Rev. O. L. Russell, pastor of M. E. church, South, assisted by Rev. J. M. Pratt. Beautiful and pathetic music was furnished by the choir. The sermon was preached from John 14:1. A goodly company of sympathizing friends attended, extending sympathy to the comparative strangers in the sad hour of bereavement. The deceased was for twenty years a member of the M. E. church, South and until declining health made it impossible for her to do so, she was an active and efficient worker. She was for years a great sufferer, but she patiently endured to the end, and died in the triumph of a living faith in her risen and ascending Lord, and has obtained the gift of Heaven's choicest Jewel, Rest. The funeral was under the direction of J. A. Royston, uncle of the deceased. A Friend.

Died in Nicholasville.

Jessamine News—After an illness of nearly five months from Bright's disease, W. T. Pherigo, aged 56 years, died at 10:30 o'clock Tuesday night. For several days after his death it was known his condition was serious, but the end came suddenly.

Mr. Pherigo moved to Nicholasville with his family from Garrard county about two years ago. He was the son of B. F. Pherigo and married Mrs. Bell Warner, of Buckeye, Garrard county. His wife and a family of six children survive him, besides one sister, a resident of Preachersville, and two brothers, one living in Illinois and one in the South. All of his children were at home when their father died. He was a contractor by profession, upright in all his business transactions, and a devout member of the Baptist church.

The funeral took place from the residence on Baldwin street Thursday morning at 10 o'clock, and the services were conducted by Rev. B. Timberlake. Burial was in the Maple Grove Cemetery.

A Starting Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "A patient was attacked with hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and Kidney troubles. Try them. Only 50c at McRoberts' Drug Store. 1m

Tabacco Prices Up to 50c.

In discussing the rise in the price of Western tobacco, the Record says the advance can hardly be for the purpose of encouraging a heavy crop for this year as the season is too far advanced to make plant beds.

That the chances for continued better prices for burley are good may be seen from an investigation of the increased production of manufactured tobacco. In 1899 the total tax paid output of smoking and chewing tobacco was 237,132,170 pounds, and since that date there has been a steady rise. During 1903 the total output was 310,067,865 pounds, showing an increase in manufactured tobacco of over seventy-three and a half million pounds from 1899 to 1903, of which, no doubt, a good percentage can be credited to the increased demand for burley to be used in the manufacture of cigarettes.

On the other hand, there is no question that the amount of burley has not increased. In fact, for the past two years the acreage, as well as the total yield, has decreased to a considerable extent. Stocks on sale today are less than they have ever been, and tobacco should never again reach the low level of the past few years.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. Van Metre, of Shepherdstown, W. Va., says, "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It is guaranteed by McRoberts, Druggist. Trial bottle free. Regular sizes 50c, \$1.00. 1m

Trade at Home.

The following from an exchange is well said: The Record knows that thousands of dollars are sent away from Lancaster that should be spent with the local merchants.

"Who sympathized with you when your little girl was sick? Was it your home merchant or was it Sears & Roebuck? Who carried you last winter when you were out of a job and had no money? Was it Montgomery Ward & Co., or was it your home merchant? When you want to raise money for the church or some needy person do you write to the Fair store in Chicago or do you go to your home people? How much does Seigel, Cooper & Co., pay toward keeping up the side walks of the town or toward raising your pastor's salary. When your loved one was buried was it your home people that shed tears of sympathy and uttered the cheering word, or was it some Chicago or New York paper? Gentlemen, your home people are your friends in all lines of business and it is your duty to patronize them."

Quick Arrest.

J. A. Guidice, of Verbena, Ala., was twice in the hospital from a severe case of piles causing 24 tumors. After doctors and all remedies failed, Buckle's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c at McRoberts, Druggist. 1m

Time here means eternity there.

That distinguishes it from all others. We carry a very large stock of attractive Monuments and Markers in Marble and Granite, ready for prompt delivery. We refer to many of the most beautiful and striking Memorials in the Lancaster Cemetery. Fine lettering a specialty.

NONE BETTER. NONE CHEAPER.

Wm. ADAMS & SON,
Lexington, Ky

Our bread can be relied upon as much as the cup defender, "Reliance".

Gossip is not a matter of sex.

"Do It Today."

The time-worn injunction, "Never put off 'til tomorrow what you can do today," is now generally presented in this form: "Do it today!" That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it today—and let that remedy be Dr. Boschee's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists. 1 Aug.

RECAPITULATION.

Mrs. Sam Baker, of Harlow, visited her sister, Mrs. Will Glass, last week. Miss Alice Dunn, of Danville, spent Sunday with her mother, Mrs. Altha Dunn.

Miss Jennie Wallace, of Point Leavel, has been visiting friends here for several days.

Mrs. E. H. Ballard and daughter, Miss Mayme, and Master Bryan Ballard, were in Lexington a few days last week.

Mr. Allen Saddle, of Lexington, has been with his mother, Mrs. Martha Saddle, for some days.

Miss Grace Kinnard, of Covington, is the guest of Mrs. Will Dickerson.

James B. Leavelle claims to be the champion fisherman of Garrard county, he having caught a fish a few days since at Kentucky river weighing 46 pounds. The fish was caught with a common line and hook. This is not one of the so-called "fish" stories, but has been told on good evidence by several of the most reliable citizens of the county.

Mrs. Margaret Jenkins entertained a number of her friends very delightfully Thursday evening, the occasion being the 13th birthday of the young hostess.

The Music Club met Saturday afternoon with Miss Jennie Swope. Quite a number were present, and all enjoyed the program very much.

Miss Grace Kinnard, of Lancaster, spent a few days with Mrs. C. J. Armstrong last week.

Made Young Again.

"One of Dr. King's New Life Pills each night for two weeks has put me in my 'teens' again," writes D. H. Turner, of Dempsietown, Pa. They're the best in the world for Liver, Stomach and Bowels. Purely vegetable. Never gripe. Only 25c at McRoberts' Drug Store. 1m

In these days office that seeks the man is usually the office without either honor or emolument.

An Open Letter.

From the Chapin, S. C. News: Early in the spring my wife and I were taken with diarrhoea and so severe were the pains that we called a physician, who prescribed for us, but his medicines failed to give any relief. A friend who had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand gave each of us a dose and we at once felt the effects. I procured a bottle and before using the entire contents were entirely cured. It is a wonderful remedy and should be found in every household. H. O. Bailey, Editor. This remedy is for sale by Fries's Drug Store. 1m

All those indebted to the late Dr. J. W. Grant for the extraction of teeth or other dental work will please call and settle. Mrs. E. P. Grant. 4-28-11

Hemp Seed For Sale.

I have about 180 bushels of the late importation cultivated hemp seed for sale. Nicely cleaned. Post office McCleary, Ky. J. T. Hicks.

Wardrobes, folding beds, etc., at Hamilton & Dunlap's. 5-6-11

EXCLUSIVE

Is the word that fittingly describes our Monumental designs. There is an individuality about our work that distinguishes it from all others. We carry a very large stock of attractive Monuments and Markers in Marble and Granite, ready for prompt delivery. We refer to many of the most beautiful and striking Memorials in the Lancaster Cemetery. Fine lettering a specialty.

CASTEL

Black Jack 15½ hands high foaled in 1894 sired by the Mitchell Jack, he by Griggs Jack he by Bob Lee, he by Black Hawk, he by Imported Warrior. Dam of Castel was Jarlen Burdine big 16 hands Jennet Castel, will make the season of 1904 at my stable 1 mile below Buckeye on the pike leading to Kentucky River at

\$6. to insure a Horse Mule, \$8. to insure a Mare, or \$10 for Jennet

YOUNG GIANT

Gray Jack 15 hands high sired by Logan Caldwell's Giant, Boyle County Ky., out of a very fine Jennet, he has proved himself a sure foot getter and a fine breeder, at SIX DOLLARS to insure a living colt sound and all rights. Both of these Jacks will stand under same terms. A lien retained on colts for season. Care taken to prevent accidents but not responsible should any occur.

W. T. NOEL, Buckeye, Ky.

We are authorized to announce R. L. DAVIS, of Lincoln county, as a candidate for County Attorney, subject to the action of the Democratic party.

For Supt. Public Schools.

Mrs. Maggie R. Guley is a candidate for Supt. of Public Schools in Garrard Co., subject to the action of the Democratic party.

For County Attorney.

We are authorized to announce J. E. ROBINSON, of Lincoln county, as a candidate for County Attorney, subject to the action of the Democratic party.

For Supt. Public Schools.

We are authorized to announce Miss MARY DAVIS as a candidate for nomination for Supt. of Public Schools for Garrard county, subject to the action of the Democratic party.

Depository Black at 3 cents.

R. A. McGeath has been appointed Deputy County Clerk for Garrard, and is located at Bryanville prepared to take action on mortgages of Deeds, Mortgages, and all legal documents. 4-23-11

RELY UPON HYOMEL.

Cures Colds, Coughs, Catarrh and Grip. Just Breathe It.

Hyomel is nature's own method for curing catarrh, colds, coughs and diseases of the respiratory organs. It is the only natural treatment for the cure of these troubles.

Breathed through the neat pocket inhaler that comes with every outfit, the air that passes into the throat and lungs, is identical with that on the mountains, where it is laden with healing and health-giving balsams. It searches out and kills disease germs in the most remote and minute air cells of the head, throat and lungs; it soothes and heals all irritations of the mucous membrane.

Hyomel is prescribed by physicians generally. Many of them use it themselves to break up a cold and prevent pneumonia.

The complete Hyomel outfit consists of a neat inhaler, that is so small and convenient that it can be carried in the pocket of a purse, a medicine dropper and a bottle of Hyomel. This costs but \$1, and it will cure any ordinary case of catarrh. In chronic and deep seated conditions, longer use is necessary and extra bottles of Hyomel can be obtained for 50c, making it a most economical treatment for this disease.

R. E. McRoberts has so much confidence in the power of Hyomel to cure catarrh and other diseases of the throat and lungs that he sells it under his personal guarantee to refund the money to any purchaser in case it fails to give satisfaction. He takes all the risk himself, and Hyomel costs you absolutely nothing unless it does you good.

Plants.

Extra early Cabbage; first class Tomato, Sweet Potato, plants; three first-class Celery plants. Joseph Paulson. 4-29-11

For Sale.

We have 45 acre tract land and two beautiful and convenient houses and lots, situated just outside of the town limits, of Lancaster on Danville street, which we will sell at fair prices and on terms to suit purchaser. W. J. Frank, by Nantamir Street, 60.

I also have a good Black Jack, to stand at \$8 to insure a living colt.

R. E. Goddard, Burgin, Ky.

PARAGON 2:29 1/4

Bay horse, 16 hands high, foaled 1896, bred by R. L. Nash, Lexington, Ky, and owned by W. T. Noel and Forrest Stapp, Buckeye, Ky.

By Jay Bird 5060

1 dam Oneida 2:17 by Florida 2:52. Sire of Frequent 2:15 1/4, Florida Monarch 2:17 1/4, Faust 2:18 1/4, Fanny 2:18 1/4, Walnut 2:19 1/4, etc., and dams of Hilda 2:09 1/4, Palm Leaf 2:10 1/4, Bertha 2:10 1/4, Democracy 2:07 1/4, etc. 2 dam Lady Ham dam of Hawthorn 2:09 1/4, Ed Winters 2:12 1/4, and Lady Boy 2:20 by Florida 2:20 1/4, Sire of Belmont 2:11 1/4, Hamward 1:59 1/4, Kablo 2:10 1/4, Drellin colt 1:57 1/4, Graydon 2:17 1/4, and 4 others, and dams of Hawthorn 2:09 1/4, Kirta 2:08 1/4, Orin B. 2:09 1/4, Emma N. 2:09 1/4, etc. 3 dam Molly by Ashland 47, Sire of Highland Win 2:28, Fanny 2:09 1/4, Joe Pratt 2:28, etc. 4 dam Britton by Nantamir 3:04, 3 dam Kit by Sir Walter (Tolliver's), Jay Bird 5060, sire of Hawthorn 2:09 1/4, winner of Bonner Memorial, \$40,000, 1903. Allerton 2:09 1/4, Sire of 110 in 2:30, Early Bird 2:10, Miss Jay 2:11 1/4, Rose 2:11 1/4, Invader 2:15 1/4, Leland the Great 2:12 1/4, and 8 others, and the dams of Crest colt, Route 2:08 1/4, Aloke 2:10 1/4, Queen Alfred 2:12 1/4, and all others in 30. By George Wilkes 5:15, dam Lady Frank by Nantamir 3:04. Paragon is a very handsome individual with plenty of size, style, action and finish. His sire, Jay Bird is one of the very greatest living sires and that his blood breeds on is shown by the fact that his sons have sired over 225 standard performers including Leland 2:08 1/4, Charley Hay 2:08 1/4, Susie 12 1/2, Eagle Flanagan 2:07 1/4, Jay Astor 2:08 1/4 and many other 2:10 performers. There is no reason why Paragon should not become one of the best bred horses living. His record is made in the fifth heat on a slow half mile track and is no measure of his speed. Should Paragon fail to get you a trotter, he is a horse of such fine size, action, style and finish that his get will certainly command fancy prices for high acting, road and carriage horses which cannot be produced fast enough to supply the demand. Paragon will make the season of 1904 at W. T. Noel's stable one mile north of Buckeye on Buckeye and Lancaster pike at \$8. to insure a living colt sound and all rights. A lien retained on colts to secure service fee. Care taken to prevent accidents but not responsible should any occur.

Wardrobes, folding beds, etc., at Hamilton & Dunlap's. 5-6-11

CASTEL

Black Jack 15½ hands high foaled in 1894 sired by the Mitchell Jack, he by Griggs Jack he by Bob Lee, he by Black Hawk, he by Imported Warrior. Dam of Castel was Jarlen Burdine big 16 hands Jennet Castel, will make the season of 1904 at my stable 1 mile below Buckeye on the pike leading to Kentucky River at

\$6. to insure a Horse Mule, \$8. to insure a Mare, or \$10 for Jennet

YOUNG GIANT

Gray Jack 15 hands high sired by Logan Caldwell's Giant, Boyle County Ky., out of a very fine Jennet, he has proved himself a sure foot getter and a fine breeder, at SIX DOLLARS to insure a living colt sound and all rights. Both of these Jacks will stand under same terms. A lien retained on colts for season. Care taken to prevent accidents but not responsible should any occur.

The Central Record.

Lancaster, Ky., May 6, 1904.
SUPPLEMENT.

A Good Law.

The recent Legislature passed a bill which has been approved by the Governor, and is therefore a law, making it a felony to draw, flourish or wave a deadly weapon on a passenger train. With a penitentiary staring them in the face maybe the drunken rioters on Sunday excursion trains will put a check on their wild west exhibition.

Tough on Rastus.

It takes only \$2 worth of chickens to send Sambo to the pen, now. And if the fowl is extra high bred, one swipe will do the business. He can take his neighbor's poor old cow, her fine young calf, the best plow on the place, two or three sheep, or any other coveted property not to exceed in value \$20, and he may escape with a fine. But when he approaches the chicken roost—take care!—Hartford Herald.

A New Deal.

We see it stated a bill was passed by the late Legislature and approved by the Governor requiring every stable keeper to keep a record of all vehicles used, securing the signature of the patron and requiring him to state how long he wishes to use the horse or conveyance, and how far he intends to go. Any violations of the law are declared to be a misdemeanor. This will be a little tight on the boys but it may work all right.—Flemingsburg Times-Democrat.

The Inevitable Consequence.

A Lexington exchange says: "There will be more tobacco raised in Fayette county this season than in many years previous. The high price reached for the Burley leaf during the past few weeks has encouraged farmers, and many immense fields that have been in bluegrass for stock grazing for several years back will be this season put in tobacco. Nearly every farm in Fayette county will raise some tobacco this season, and many breeders of fine cattle and horses are sparing at least a portion of their farms for tobacco."

Better Stay Home.

Young men are flocking to St. Louis from all parts of the country seeking employment, laboring under the sad impression that positions are seeking them instead of them seeking the positions, says the Jessamine Journal. One employment bureau in St. Louis has on its list the names of 150 young men looking for employment at an "easy" job. In the dawn of the twentieth century, there was never such a demand for moral young men, as there is today, but they must be well equipped for what they undertake. The trades people of St. Louis and other large cities are commanding wages of \$3.50 to \$8 per day, but the average young man desires to be in the professional world, which is so overdone that a large proportion of them are barely eking out a living. Young man, if you desire a place in this busy world, equip yourself with thorough business deas.

Would Get Rich.

The Kansas Mail and Breeze, says: "We drove out through the country south of here the other day, and on one farm we saw the son cultivating the corn in the field, the husband sowing millet in another field and his wife driving a team harrowing in the seed, one daughter was at the woodpile chopping wood with which to prepare dinner, another daughter was at work in the yard and two small children were carrying drinking water to the workers in the field." If the people in the bluegrass worked that way they would all become millionaires.

A Common Offense.

On a warrant issued Tuesday by Judge Pendleton, officer Duckworth arrested and brought into court Geo. Marks, who plead guilty to the offense of cutting and removing sod from the side of the street on Central Avenue in front of Dr. Browne's grounds, but was released on bond to replace the sod and incidental expense, the culprit convincing the court that he was ignorant of any offense, which ignorance is shared by many people, who do not know that the adjacent land owner in town and county own the land to the center of the road for all purposes, except for use as streets and public roads for travel.

Selecting Good Teachers.

The spring crop of school teachers will soon bloom out in beautiful luxuriance and the trustees will have the exquisite pleasure of listening to the dulcet strains of chin music that will fall from the lips of the would be pedagogues who will be pressing their most urgent claims of superiority in their ability to "teach the young idea how to shoot," says an exchange. With the extra month added to the schools of Kentucky, it is up to the trustees to lay aside any preconceived notions of favoritism, and select teachers who have ability to teach and energy enough to keep on their feet during school hours and work the full number of hours the law requires.

Through Sleeper from Lexington to St. Louis via Chesapeake & Ohio Railway—Beginning April 28th, the Chesapeake & Ohio Railway will inaugurate a through sleeping car line to St. Louis via Louisville and the Southern Railway, to leave Lexington daily at 5:20 p. m. and reach St. Louis at 7:30 a. m. Returning, this sleeper will leave St. Louis at 10:10 p. m. and will reach Lexington on C & O train number 22 11:10 a. m. the next morning.

Jap-lac varnish makes old furniture new. At Thompsons.

The Best Place.

The farm is a good place on which to be born, on which to live through one's prime work, on which to die. Some times it happens that one who has spent his boyhood days on a farm may, when he comes to struggle for himself, stray away to town and engage in one of the numerous vocations which men there pursue for a livelihood. However successful he may prove in business in town, there comes a time as old age approaches when his earlier life in the country, its independence, its calm, healthful enjoyments and scenes and products of nature and he feels a strong, overmastering desire to spend his later years and die in the country on the bosom of the great mother of us all—generous, teeming earth.

Land, Stock, Crops.

See ad of Washington 54, my fine horse. He stands at the head of the list in high-class horses. J. W. Sweeney. 4-15-1f

Oats are about all sown and coming up slowly.

Early potatoes and some garden truck have been planted.

Wheat is generally reported to be in fair condition, but is making hardly any growth.

Pastures and meadows look fairly well, but are not advancing much.

Tobacco plants are up, but at a stand still, and in some localities have been damaged by freezing.

Corn planting is progressing satisfactorily and a good acreage will be put in.

E. T. Jones, of Winchester, bought an extra nice pair of mules for \$220.

W. B. Taylor, of Bourbon county, recently purchased a good work mule for \$120.

In Hardin county, A. S. Hamilton bought a \$100 mule from Henry Carr. Windows, and lots of them, on the sunny side of the cow barn, is the sovereign preventive of tuberculosis and lots of other mean things.

In Clark county, S. W. Willis bought of Gentry Bros., of Lexington, a fine pair of mules for \$350, and sold a pair of 3-year-old mules for \$300.

As milk and butter are easily affected by odors or flavors, it is possible to get some very pleasant results by placing delicately scented flowers or fruit in the refrigerator with them. Oranges give a delicious flavor to butter.

Fruit has been seriously injured by the heavy frosts but the extent of the damage cannot be determined at present. It is probable that the peach crop has suffered severely in nearly all localities.

During the eight months ending February 29, 1904, the United States exported \$17,441,532 worth of fruit and nuts, against \$15,362,671 worth for the corresponding period of 1903-3, and \$6,694,341 worth in the same months of 1901-2.

The unprecedented amount of unsettled weather for the past three or four weeks has put farmers very much behind with their work. Not even all the oat crop is sown yet, and very little ground yet broken for the corn crop. Most all the potatoes are planted, but not a great deal of garden truck is put out except onions and lettuce.

The Lower House of Congress this week passed a bill repealing the internal revenue tax of six cents a pound on leaf tobacco. We do not now remember the exact provisions of the bill, but understood it gives practical free trade in leaf tobacco. It is not thought the bill will get through the Senate at this session.

The strawberry growers of the Chattanooga district are figuring on a crop this year worth \$150,000. They argue that the cold weather of the last few weeks has been a help to them, inasmuch as in some of the more Northern latitudes the vines were killed by the cold weather. This they assert will insure better prices for the Southern crop. Chattanooga will ship more berries into Northern cities than ever before. Last year the local crop ran over 150,000 crates, and the chances are that the present crop will approximate 200,000 crates, with an average price of 75 cents a crate. This would bring the sum of \$150,000 into the pockets of the Chattanooga growers—Nashville Banner.

Information from the chief burley tobacco centers of Kentucky, including Cincinnati, and also including the sales on the local market, lead to the conclusion that the Continental Tobacco Company has purchased upward of 80,000,000 pounds of the 1903 crop of burley tobacco. The 1903 crop is thought to have aggregated about 125,000,000 to 150,000,000 pounds. It is reasonable to expect that the independent and others have taken the Continental did not get.

Many gardeners fail in raising cucumbers and melons on account of the ravages of the striped melon bug, diabrotica vittata. The pest is easily controlled. Take four ounces of soap and boil in one quart of water until soap is dissolved. Add four tablespoonfuls coal oil. Beat while hot for ten minutes. This quantity will last all summer if put away in a cool place. Take one tablespoonful of the jelly to bucket of water, stirring together. Water the vines once or twice a week. This mixture will not injure the most delicate plant and is a perfect insecticide.

A red heifer calf, about five or six months old. Has been in Lowell since about first of January. Owner can have same by proving property and paying all charges. A. Scott, Lowell.

Building, Isn't It?

There who persist in asking the question "Is it?" should take warning from the following article published in the Nicholasville News:

Sunday night when the rain was coming down in a nasty drizzle, two gentlemen met in front of The News office, one carrying an umbrella, when the following conversation was overheard by the editor:

"Raining, isn't it?"
"Eh?"
"Raining, isn't it?"

"I'd like to see you privately for a moment," was the reply. "Come into this doorway."

The two took shelter and then number two turned to number one with the interrogation:

"Do you take me for an infernal idiot?"

"Why, no; of course not."

"Do you suppose I'm carrying an umbrella over my head to keep off the sun at this time of the year?"

"No."

"I'm carrying it to keep the rain off am I not?"

"Of course."

"Well then, it rains. You know it rains. Everybody in town knows it rains. Now, you trot along and let people alone."

"But—but—"

"That's all. You let it rain. She knows her business. You attend to yours and let the weather alone. Good night, sir."

And he strode off up town, leaving the other fellow with something to ponder over.

FIRST KENTUCKY

State Tournament

Given By

Lancaster - Athletic Association.

To Be Held At

Lancaster, Ky.,

June 22, 23, 24, 1904.

Under the Management of the Lancaster Athletic Association.

R. W. McRoberts, Manager.

Lancaster, Ky.

LIST OF

Contests and Prizes.

VOCAL CONTEST.

Vocal Contest (Male). Medal by R. Zimmer, Confectionery and Restaurant, Danville, Ky.

Female—Scholarship to Hamilton College, or gold medal, by Curry & Davidson, Grocers.

PIANO SOLO.

Male—Scholarship Threlkeld Select School, Nicholasville, or medal by Hon. Harve Heim, Stanford, candidate for Congress.

Female—Scholarship by Jessamine Female Institute, Nicholasville, or a scholarship to Caldwell College, Danville, Ky.

ORDINANCES IN REGARD TO CONTROL OF LANCASTER WATER WORKS PASSED AND ADOPTED BY CITY COUNCIL MARCH 7, 1904.

An ordinance providing the rules, regulations and rates of the City of Lancaster Water Works, and the following ordinances, when adopted, shall govern the officers appointed in connection with the Water Works and shall be a part of the contract between the City of Lancaster and the consumers of water in so far as they may apply, and shall govern and be obeyed by all plumbers doing work in connection with said Water Works. Therefore be it ordained by the City Council of the City of Lancaster as follows:

ARTICLE I.

SECTION 1. The Water Works of the City of Lancaster shall be under the control and management of the City Council of the City of Lancaster.

Sec. 2. There shall be appointed by the Mayor each year, when other standing committees are appointed, a committee consisting of three members of the City Council, two of whom shall constitute a quorum, said committee to be known as the Water Works Committee; said committee shall have the immediate supervision of the Water Works system, and shall have the power to do all such acts necessary for the prudent and efficient management and protection of the Water Works plant and system, not inconsistent with the ordinances of said city and rules and regulations established, or that may hereafter be established by said city in relation to said works.

Sec. 3. The City Engineer or Superintendent, hereinafter provided for, shall, by virtue of his office, be clerk of said committee, and shall under its direction cause a record book to be kept in which to record the proceedings of the committee, which proceedings of the committee shall be read to the Council at each regular meeting of the Council thereafter, and when approved by the Council, shall become part of the records of and be binding on said city, and the City Clerk shall sign and note same as approved by the City Council. Said record shall each month show the true condition of the works; if any change is made during that month, the additions and improvements made thereto during the month and such other information and suggestions as the committee may deem proper to embody therein.

Sec. 4. The City Council shall, on the first Monday night in January, after each biennial election and after their qualification, elect a City Engineer who shall be known and called the Superintendent of the Water Works. Said Superintendent shall be elected for a term of two years, subject to removal at the pleasure of the City Council, and if, for any cause, a Superintendent be elected at some other time, his term of office shall not extend beyond the term of office of the Council by whom elected. Said Superintendent shall, before entering upon the discharge of his duties, execute and file with the City Council a bond, with good security, to be approved by the Council, in the penal sum of \$1,000 for the faithful performance of his duties as such Superintendent, according to the ordinances, rules and regulations governing said Water Works and for the payment of all moneys that may come to his hands as such Superintendent; said bond shall be payable to the City of Lancaster.

Sec. 5. The City Council shall, on the first Monday in January after each biennial election and after their qualification, elect an engineer who shall be known as the Water Works Engineer. Said engineer shall be elected for a term of two years, subject to removal at the pleasure of the City Council, and if for any cause he be elected at any other time his term of office shall not extend beyond the term of office of the Council by whom elected. Said Water Works Engineer shall, before he enters upon the discharge of his duties, execute and file with the City Council a bond with good security, to be approved by the Council, in the penal sum of \$500 for the faithful performance of his duties as such engineer according to the ordinances, rules and regulations governing said Water Works. Said bond shall be payable to the City of Lancaster.

Sec. 6. The salary of the Superintendent and of the Water Works Engineer shall, at the time of their election, be fixed by the City Council for the term for which they are elected, at a fixed sum per month, payable monthly, so long as they hold their respective offices.

Sec. 7. The salary of the Superintendent for the term ending January 1, 1906, shall be \$..... per month, and the salary of the Water Works Engineer for the term ending January 1, 1906, shall be \$75 per month.

Sec. 8. All rents, revenue, income monies, assessments, etc., derived from the Water Works system shall be held and kept by the Treasurer in a separate fund to be known as the Water Works Revenue Fund, and shall in no event be mixed with or confused with the general fund or other funds of the city, and upon said fund and no other shall be drawn the warrants for the payment of expenses, salaries, accounts, indebtedness, etc., arising from the control and management of the Water Works system, and each warrant or voucher drawn on said fund shall have written or printed across its face Water Works Revenue Fund, and no warrant or voucher shall be issued or drawn on said fund except at a regular meeting of the City Council and upon the approval of the Water Works Committee; and if at any time it becomes necessary to pay any indebtedness payable out of said

and shall have general supervision of all the plumbing work both within and without the premises, and shall have the power to stop any work which is being done in violation of the ordinances of the city or the rules and regulations of the Water Works. He shall have charge of the inspecting, and shall be authorized to enter and have free access to the premises to examine and ascertain the location or condition of all pipes, meters, hydrants and all other water fixtures, and shall be vigilant to detect and warn against all abuses whether from waste or other improper use of water on account of negligence or for want of repairs or otherwise, and if such waste is not immediately remedied the services leading to such premises shall immediately be cut off. And in case he discovers any defect in a private pipe beyond the service cock he shall give notice in writing, to be left at the premises, and if the necessary repairs are not made within a reasonable time thereafter he shall cut the water off. He shall have charge of and keep in repair the fire hose, and as near as possible attend all alarms of fire, direct the firemen to the nearest available hydrant, notify the Water Works Engineer of the pressure needed, shut off any part of the pipe and do such other things as may be necessary at such times.

Sec. 5. The Superintendent shall pay over to the Treasurer all moneys collected by him, he shall not create any indebtedness on behalf of the Water Works unless so directed by the Council or the Water Committee, he shall not turn on any water for any user in the first instance until the advance rent is paid, and when the same has been cut off for cause until the penalty is paid, and shall cut off the supply of delinquent at the time designated in the ordinances, and if through his failure to do so any person becomes indebted to the city said Superintendent shall be liable for such indebtedness, and also for such fees or cost due the city in advance for the tapping of the main, the Corporation or service cock, and street service pipe if he fails to collect same in advance. The Superintendent shall inspect and keep in condition all hydrants and perform such other services as may be necessary for the proper management of the Water Works.

Sec. 6. The Water Works Engineer shall have charge of the Water Works buildings, engines, pumps, head and inflow pipes; and it shall be his duty to have the care and management of the running of the machinery, and be on duty at all times day and night or furnish an assistant to be on duty at such times as he may not be there, which assistant shall be a competent engineer, subject to the approval of the City Council. He shall be under the control and supervision of the Water Committee, and report to said committee the monthly consumption of fuel and other materials used, indications of the gauges and counters and other information necessary to show the exact duty of the engines, pumps and boilers, and from time to time the state of the works and such improvements as he may deem for the interests of the same, and perform such other duties as shall be prescribed by the City Council or Water Committee.

ARTICLE III.

SECTION 1. All applicants for the use of water shall make application thereon on the printed blanks furnished and at the office of the Superintendent. Said applications shall be securely bound in book form with indexes, so as to be preserved, and same shall constitute part of the records of the Superintendent's office; after the application is signed by the applicant, the Superintendent, if there be no valid objection, shall sign same, the contract shall thereupon be binding; if the Superintendent thinks the application ought not to be granted he shall at once notify the Water Committee, giving them his reasons for refusing to grant same; whereupon said committee shall examine into said application and grant or refuse same in their discretion, which action of the committee shall be noted on the margin of the application and a record thereof made in their record book.

Sec. 2. All applications for water must state fully in the applications mentioned in the preceding section, all purposes for which the water is required; must answer fairly and without concealment the necessary questions relative to the consumption of same, the number of rooms, faucets, hydrants, etc.; all of which statements shall be written in the application. Applications made by a tenant of property must be with the consent of the owner of the property into whose premises the water is proposed to be introduced. A separate application shall be made for each building, residence, business place, etc.; also for each branch connection where more than one connection is made from one service pipe, and special or separate application must be obtained for each and every extension of the plumbing connection with each and every service pipe, and before such extension is commenced. And no plumber shall make any change or additional connections without first receiving a permit therefor, and no permit shall be issued to the plumber until the application as herein provided for is made. No permit shall be understood or construed as authorizing or permitting anything not explicitly or truthfully stated in the application.

Sec. 3. Upon the granting of the application the Superintendent shall issue a permit to such licensed plumber as may be selected by the applicant, to proceed with the work according to the application. No such permit shall be issued until the fifty cents fee therefor shall be paid by the plumber.

ARTICLE IV.

SECTION 1. And plumber wishing to do business in connection with the Water Works must apply to the Water Committee for a license and furnish to it satisfactory evidence that he is a regular educated plumber, that he is a master of his trade and agrees to be governed in all respects by the rules and regulations which are or may be adopted by the City Council. If the evidence be satisfactory said committee shall order the Superintendent to issue to such plumber a license, upon the payment to him in advance the sum of \$25. The license shall be good for a period of one year. Renewals of the license shall be paid for in the same way, \$25 dollars in advance. The plumber will be held responsible and liable for all injuries the Water Works may sustain directly or indirectly because of any damages he or his employees may do in connection with said Water Works. The plumber in his application for license must state full name of applicant or all applicants, if it is a firm, his place of residence, his place of business, and the firm name under which the business is to be carried on. The party so applying and receiving such license shall execute and deposit with the Water Committee a bond with two or more sureties, to be approved by said committee, in the penal sum of \$1,000.00, said bond to be to the City of Lancaster, Ky., and conditioned that he or they will restore all earth pavements and other material to as good a state and condition as it was before such opening was made, and keep and maintain the same in good order and to the satisfaction of the Water Committee for a period of six months next thereafter, and that he will pay all fines imposed upon him, for any violation of any rules or regulations or ordinances, and that he will obey all the rules, regulations and ordinances.

Sec. 2. Any plumber desiring to introduce water into any house or into any other place or to do any work of any nature whatsoever in connection with the taking or use of water, both new service and the extension of existing services, must, before commencing said work, first make application for a permit on the blanks provided by the Water Department for each and every service. He shall specify therein the full name of owner and occupant, the name and side of street, and number, if any, of the house, the number of the block and lot, the purpose or purposes for which the water is to be used together with a full list of fixtures and their locations and all other particulars pertaining to a full understanding of the subject. Special application must be made and permission obtained of the Superintendent for making any extension or change of the plumbing of any house, residence or business place beyond that which permission may have already been granted.

No permit shall be understood to authorize anything not explicitly and truthfully stated in the application, and any misrepresentation in the application the plumber shall report to the Superintendent.

Sec. 3. All plumbing work, both within and without the premises, must be done in the manner required by the Water Department, and shall be subject to inspection and approval, and the patterns and quality of all appurtenances shall, in like manner, be subject to approval, and no work under ground shall be covered over until inspected and approved by an authorized representative of the Water Department.

Sec. 4. It shall be the duty of all plumbers to make returns in writing, to the office of the Water Department before the water shall be turned on, of all connections made by them, giving a description of the premises, the number of hydrants, baths, water closets, fountains, street washers, apparatus for garden hose and all other apparatus and fixtures supplied therefrom, together with the name of the occupant and owner of such premises.

Sec. 5. The interior plumbing may be of such kind as the applicant or owner may direct, but it must be capable of standing satisfactorily an actual test pressure of not less than one hundred and fifty (150) pounds per square inch, and at no risk or liability of the city, but lead pipe of lighter weight than herein indicated must, under no circumstances be used, nor will any but self-closing faucets be allowed on any of the interior work excepting bath tubs, on which may be used regular bath tub fixtures.

Sec. 6. All service pipes extending from the main through the inner line of the building must be of lead, must be connected with full welded joints and be of not less than the following weights per running foot:

1/2 inch bore, Medium.....	1 lb.
1/2 " " Strong.....	1 lb. 12 oz.
3/4 " " Strong.....	2 lbs. 8 oz.
1 " " Strong.....	3 lb.

1 " " Extra strong..... 4 lbs. 12 oz.

1 1/2 " " Extra strong..... 6 lbs.

Sec. 7. There shall be a stop and waste cock attached to every service pipe at the building line to permit shutting off the water and of emptying the pipes in the building during freezing weather, and every lead service pipe must be laid sufficiently waving to allow not less than from one to one and a half feet extra length and in such a manner as to prevent rupture from settlement.

Sec. 8. No connection with the mains shall be made during freezing weather unless approved by the Superintendent, and all service pipes and connections must be laid at least 2 1/2 feet below the established grade and below the surface of the ground on public or private property unless otherwise allowed by the Superintendent.

Sec. 9. The water will not be turned into any service pipe, except when meters are used, until the applicant shall have paid the rent due, and plumbers are strictly prohibited from turning the water into any service pipe except on the order or permission of the Superintendent. This rule shall not be construed to prevent any plumber admitting the water to test pipes and for that purpose only.

Sec. 10. No main shall receive a larger tap than 3/4 of an inch without permission of the Superintendent, and shall be less than 3/4 of an inch when so ordered by the Superintendent. All taps on mains shall be at least 24 inches apart.

Sec. 11. In case of violation of any of these provisions on the part of any licensed plumber, or for cause, the Water Committee may annul said plumber's license, and in case the person or persons whose premises are to be supplied with water shall procure the work of said construction and attachments to be done by any person other than the licensed plumber who may be named in said permit, the Water Committee may, at its pleasure, withhold the supply of water from the premises aforesaid.

Sec. 12. Any person not duly licensed who shall do any plumbing for the purpose of connecting with the City Water Works shall, on conviction thereof, be fined in the sum of not less than ten (\$10) dollars nor more than one (\$100) dollars.

Sec. 13. The plumber will under the supervision of the Superintendent tap the main, inserting a stop cock, which shall be known as the corporation cock, and will connect the service pipe and lay it to within one foot inside the curb line, and there set a stop cock which shall be known as the service cock together with the service cock box, for which the plumber shall charge the applicant the actual cost thereof, as near as possible counting from the center of the street, which charge shall not exceed the sum of \$8.00, fifty cents of which shall be paid to the city by the plumber in advance at the time the permit is issued to him to do the work.

Sec. 14. One service pipe may be made to supply all parties taking water within 30 feet on either side of service pipe, same to be within the discretion of the Superintendent, in which case each branch must have a service cock with service cock box set within one foot of the curb line of the street; in the event this is done the plumber shall still pay the fifty-cent fee for the tapping of the main the same as if an extra tap was made.

Sec. 15. Parties desiring to discontinue the use of the water must give notice thereof in writing to the Superintendent on or before the day to which the rent has been paid, otherwise they will be charged with rent for the ensuing quarter.

Sec. 16. No claim shall be made against the City of Lancaster, Ky., by reason of the breaking of any main or service pipe or cock or any other interruption of the supply or by reason of breakage of machinery, or stoppage for necessary repairs.

ARTICLE V.

SECTION 1. All water rates not otherwise provided for shall be paid quarterly, on the first days of January, April, July and October, in advance, and all meter bills shall become due and payable monthly.

Sec. 2. Except when meters are used all contracts shall be for a term of one year or more and date from the first of January. All new applications shall be charged pro rata from the day of application to the first day of January.

Sec. 3. In all cases of the non-payment of the water rent within ten days after the same becomes due, the supply may be cut off, and not turned on again either for the present or subsequent occupation except upon the payment of the amount due together with the sum of one dollar for expense of shutting off and turning on the water.

ARTICLE VI.

SECTION 1. Parties taking water must keep the service pipe and all the fixtures connected therewith, in good repair, and protected from frost, at their own expense, and must prevent all unnecessary waste or the water will be shut off.

Sec. 2. Faucets, Hydrants, Hose attachments, or any other device which the consumer may adopt for obtaining water from the service pipe shall not be located so as to be accessible to persons living on or occupying neighboring premises or to the public; water shall not be turned on such hydrants, faucets or other device until such hydrant is removed to some unexposed place on said premises. None but flush hydrants will be allowed unless the hydrant is placed within a building or an enclosure and protected from use by any persons not occupants of the premises.

Sec. 3. Any consumer or consumers of water from the said Water Works who shall permit others not members of his family to use water from his or their hydrant, faucet or other device, without first being assured by the Superintendent that the proper water rent has been paid for the use of same, and anyone who shall thus obtain water, without a permit from the Superintendent, shall be fined in the sum of not less than one, nor more than ten dollars, and the water shall be immediately shut off.

Sec. 4. Faucets, hydrants, taps, hose, water closets, urinals, baths or other fixtures will not be permitted to be kept running when not in actual use without special permit, and the payment of additional rates, such rates to be determined by the Superintendent, who shall report the same to the Water Committee.

Sec. 5. No hose shall be used unless a permit for same has been applied for and allowed by the Superintendent, and in no case shall it be over three-fourths of an inch in diameter or be used without a nozzle, and the nozzle shall not exceed one-fourth of an inch in diameter; said hose shall not be suffered to run when not used by a person engaged in sprinkling. Adjusting hose on temporary or fixed supports or such devices may be allowed on payment of three dollars extra for the season.

Sec. 6. Persons intending to build or repair any building for which city water is to be used, shall make application on a form provided for that purpose to the Superintendent. When an attachment is made to supply water for building purposes the service pipe shall be carried at the expense of the party building to the inside of the curbstone line, where a proper service cock shall be placed with pipe leading to the surface, the faucet of which shall be kept covered and locked when not in use. When the building is completed, the faucet and pipe shall be taken up, too, and the water shut off at the service cock.

Sec. 7. No person except the Superintendent shall take water from any public or private hydrant, fire plug or other fixture connected with the water mains, except for fire purposes or for the use of the Fire Department in case of fire, nor in any way take or use water for private use unless such person shall first make application to the Superintendent and comply with the rules laid down by this ordinance.

Sec. 8. Immediately upon an alarm of fire being sounded, all sprinkling of streets and of yards or lawns shall immediately cease, and no such sprinkling shall be done for two hours after such alarm is sounded. It shall be the duty of the Superintendent upon first having given notice to the occupant to turn off the water from any premises where sprinkling is done in violation of this section, and such water shall not be turned on again until the penalty (if any) imposed for such violation shall have been paid. Any violation of this article shall be punished by a fine of not less than one dollar nor more than ten dollars.

ARTICLE VII.

SECTION 1. The water rates which shall be charged for the use of water are hereby established as follows, but same shall be subject to change by the City Council as they may deem necessary, and rates for water not herein fixed shall be such as may be made by the applicant and the Water Committee by contract at the time of the application. Said rates are as follows:

No. 1.—DWELLING HOUSES.

House of six rooms occupied by one family, supplied by one faucet.....	\$ 5 06
Each additional faucet, not hereinafter especially rated.....	1 50
When a house is occupied by more than one family, and all supplied by one faucet, for each family.....	4 00
Each family having separate fixtures in a house occupied by more than one family, will be charged the same as if living in a separate house.....	
One bath tub, private family.....	3 00
For each Roomer.....	50
When used by more than one family, for each family.....	2 00
Each additional bath tub.....	1 75
One water closet of approved kind.....	4 00
When used by more than one family, for each family.....	3 00
Each additional water closet.....	1 75
When one bath tub and one water closet are used, for both.....	6 00
One self-closing urinal (no other allowed).....	2 00
One set tub.....	1 75
Each additional set tub.....	1 00
Wash stand.....	1 00

Where a hot water faucet is used at the same vessel with a cold water faucet, but one faucet shall be charged for, and the same applies to boarding houses.

Provided, that in no case shall the charges for the use of water by a private family, exclusive of hose and stable, exceed..... 25 00

No. 2.—BOARDING HOUSES.

Supplied by one faucet.....	\$10 00
Each additional faucet.....	2 00
One bath tub.....	8 00
Each additional bath tub.....	2 00
One water closet of approved kind.....	8 00
Each additional water closet.....	2 00
Each self-closing urinal.....	2 75

No. 3.—HOTELS. SPECIAL RATES.

Lodging houses, in addition to the rates for boarding houses, for each bed for boarder and lodgers..... 50

No. 4.—PUBLIC LAUNDRIES AND BATHS.

For each laundry tub.....	\$12 00
For each bath tub.....	12 00
For each water closet.....	9 00
For each self-closing urinal.....	4 00

No. 5.—STORES, OFFICES AND WAREHOUSES.

First faucet.....	\$5 00
Where two tenants are supplied by same faucet, each.....	3 00
Where more than two tenants are supplied by same faucet, each.....	3 00
Water closets used by one tenant only.....	5 00
Water closet used by more than one tenant, each.....	2 75
For each additional faucet or water closet, half the above rates will be charged.....	
Self-closing urinal, each tenant.....	2 00

No. 6.—SHOPS, RESTAURANTS, MARKETS, ETC.

Apothecary shop, one faucet.....	\$12 00
Each additional faucet.....	2 75
Water closets and urinals same as for dwelling houses.....	
Barber shops, one faucet and one chair.....	5 00
Each additional faucet.....	1 00
Each additional chair.....	1 00
Dining restaurants and bakeries.....	\$10 00
For purposes not included above, and requiring not more than ordinary supply of water.....	\$10 00 to 25 00

No. 7.—HOSE.

For hose having a nozzle of not over one-quarter inch orifice, used for washing windows, watering gardens and lawns, and sprinkling streets, the use being limited in all cases to three hours per day for each hose from 6 to 8 a.m., from 6 to 8 p.m., \$10 00 This charge to be made whether the hose is used for the whole or part of the year.

No. 8.—ORNAMENTAL FOUNTAINS.

To Be Used Not More Than Four Hours Per Day.....	
For jet one-sixteenth inch diameter.....	\$ 5 00
For jet more than one-sixteenth and not over one-eighth inch diameter.....	12 00
To Be Allowed to be Used More Than Four and not More Than Eight Hours Per Day.....	
For jet one-sixteenth inch diameter.....	\$ 9 00
For jet more than one-sixteenth and not over one-eighth inch diameter.....	20 00
All rules applying to the use of hose apply also to the fountains.....	

No. 9.—STABLES.

Private Stables.....	\$ 2 00
For one horse.....	1 00
Each additional horse.....	1 00
Neat cattle, each head.....	1 00

Livery Club or Boarding Stables.

Meter.

STREET SPRINKLER.

Meter.

No. 10.—STEAM POWER.

Meter.

MOTORS FOR POWERS.

1-16 in. jet per month.....	\$ 3 00
1-in. jet per month.....	7 50
3-16 in. jet per month.....	10 00
1-in. jet per month.....	12 50
3-in. jet per month.....	16 00
Water Lifters.....	6 00
Not allowed except in connection with general uses.....	

No. 11.—BUILDING PURPOSES.

Cubic yards of Stone.....	5c
Thousand of Brick at.....	10c
Yards of Plaster.....	1c
Cubic yards of Cement.....	15c

No. 12.—METERED WATER.

200 to 500 gallons per day, per 1000 gallons.....	35c
500 to 1000 gallons per day, per 1000 gallons.....	30c
1000 to 2000 gallons per day, per 1000 gallons.....	25c
2000 to 3000 gallons per day, per 1000 gallons.....	20c
3000 to 4000 gallons per day, per 1000 gallons.....	18c
4000 to 5000 gallons per day, per 1000 gallons.....	15c
5000 gallons and up.....	10c

Meters will be allowed only at the discretion of the company, and in no case where a meter is used shall the annual charges be less than the following:

For three-quarter inch meters or less.....	\$ 25 00
For one-inch meters.....	40 00
For one and one-half inch meters.....	60 00
For two-inch meters.....	100 00
For all uses not herein specified the rates shall be fixed by the Superintendent.....	

ARTICLE VIII.

SECTION 1. The City reserves the right to, at any time without notice shut off the water in their mains for the purpose of making repairs or extensions, or for other purposes, and all persons having boilers within their premises not supplied by tanks, but depending on the pressure in the pipes to keep them supplied, are hereby cautioned against danger of collapse.

Sec. 2. Sprinkling streets and lots and yards, etc., with hose is restricted to five hours per day, from 5 to 7 o'clock A. M. and from 4 to 7 o'clock P. M. And in sprinkling streets each water taker must confine himself to the front of his premises and half the width of the street thereof.

Sec. 3. If proprietors of lumber yards, manufactories, halls, hotels, stores or public buildings, who are regular customers from the works, wish to lay large pipe with hydrant or hose coupling to be used only in case of fire, they will be permitted to connect with the street main (upon application to the Superintendent and under his direction) at their own expense, and will be allowed the use of water therefrom for fire purposes only.

Sec. 4. In no case will service pipes be allowed to run across lots, that is, from one lot to another, but must be taken from the mains to front of the premises, or some point on the street adjacent to same, except as provided in Section 14, of Article IV.

ARTICLE IX.

SECTION 1. Be it further ordained by the City Council of the City of Lancaster, that it shall be unlawful for any person or persons to injure, damage, molest, obstruct or in any way interfere with the system of Water Works or any part thereof within the City of Lancaster, or belonging to said city, or to injure, damage, molest or obstruct or in any way interfere with the pipes, hydrants, valves or any part thereof, or in any way interfere with the water therein, or molest, injure, damage or interfere with the machinery or buildings connected with said Water Works, or any part thereof in the City of Lancaster or belonging to said city, and any person violating the provisions of this section shall, upon conviction, be fined not less than \$5.00 nor more than \$100, or imprisoned not less than ten nor more than fifty days, or both fined and imprisoned, in the discretion of the Court or jury trying the case.

Sec. 2. It shall be unlawful for any person to go upon or trespass upon the ground inside the inclosure or fence at or around the lake, or to throw upon the ground or in the lake any filth, rubbish or other material or shall in anyway injure the fence or grounds, and any person who shall be found guilty of a violation of this section shall be fined not less than \$1.00 nor more than \$100.

Sec. 3. It shall be unlawful for any person to take or carry away or use any water from any public or private hydrant, fire plug or other fixture connected with the water mains, except as provided in these ordinances, and any person who shall be found guilty of a violation of this section shall be fined not less than \$5.00 nor more than \$50.00.

Sec. 4. Any person who shall be guilty of a willful violation of any of these ordinances, rules or regulations, if the penalty be not otherwise provided for herein, shall be fined not less than \$1.00 nor more than \$100.

Sec. 5. All ordinances in conflict with these ordinances are hereby repealed.

R. KINNAIRD.

Attest: W. B. MASON, Clerk.

Man, poor man, knows now that he is as much of a fraud as his weaker sister. Mrs. Linda Ross Wade has let the cat out of the coffee sack. She has told 1,000 women hearers that broad shouldered men are merely the result of good tailoring. Not one in 70,000 who are the admirers of feminine friends, she says, are what they seem from the outside of their spring suits. And so there, you see, man would better close his facial orifice when the subject of padding is up for discussion. And padding was the very subject that Mrs. Wade lectured on before the St. Louis bureau of the National Dressmakers' Association the other night. Among other things she said:

"Men try to tell me that no woman has the moral right to deceive by padding. You can't find ten big, fine, broad shouldered men in St. Louis, who, if they had the padded coats off, would be the whole thing. It is a woman's duty to look well. A neatly dressed, nice appearing young woman, nine times out of ten, is morally nice. It's the unkempt, slovenly woman who is morally reckless. If you want to pad, pad. It will make you appear better, pad. Gowns are built to give nice effects, to reduce or to give size to the form, and if padding is wrong, that's wrong." "If padding is wrong, then half the things that men and women do are wrong, because we all always are trying to appear different than we really are. Dress yourselves as you please, and if the men don't like it, let them remedy matters." "Jumping Paderewski! But this is bold talk. Still, on second thought, maybe it had better be swallowed quietly. Were reply made, maybe Mrs. Wade would demand to have opportunity to utter some more last words. And, anyway, military coats are going out of style."

Commissioner's Sale of Land.

GARRARD CIRCUIT COURT.

W. N. Carter's Heirs, Pl'ts.

vs.

W. N. Carter's Heirs, D'ts.

By virtue of a judgment in the above styled action rendered at the March Term, 1904, of the Garrard Circuit Court, I will on

MONDAY, MAY 23, 1904,

publicly before the Court House door in the city of Lancaster, Garrard county, Kentucky, sell to the highest and best bidder the following described real property lying and being in Garrard county, on the waters of Scott's Fork, of Sugar Creek, and bounded as follows:
